

Excessing Update

December 27th, 2017

Following the union's continued arguments that the planned excessing of Clerks from the Milwaukee Installation should be reduced, management announced today that they would reduce the number of planned excessed Clerks in the Milwaukee Installation to 8 total. This is a large reduction from the number of 43 that was announced just a few months back. Letters will be sent to those affected. In the meantime, the union will continue its fight to reduce and eliminate the rest of the planned excessing where possible. If anyone has any questions please contact a Steward or the Union Hall at 414 273-7838.
